

## Year 10 Fine Art Home Learning - AAt

- 1 Research images of work by Brian Froud.
- 2 Find out about his life and the books and films he has worked on. His work ranges from imaginative sketches in pen (and water colour washes) or pencil, to very complex and detailed paintings that hide many faces of otherworldly creatures hidden in the background.
- 3 Do an idea for a character based on the work of Brian Froud using pen (and water colour if you have some).
- 4 Develop another character in pencil this time in more detail using tone.  
Extra Challenge...Include a background or scene around the character for even more impact.
- 5 Based on the work of Brian Froud develop a new character(or characters) using mixed media and colour.  
Exaggerate ideas, create your own ideas from parts of his...for example use different parts of his characters facial features to make up your own different ones The same for body parts, mix and match them or search your own inspiration from nature like he does to fuel his imagination!  
Extra Challenge....Include your character in a scene, include more characters, of faces like Brian Froud does in the background.
